MEG WILLIAMS
TAKE ME AS I AM: THE MUSCLE SHOALS SESSIONS

KEY SELLING POINTS:

Nashville's Meg Williams follows her 2017 EP, "Maybe Someday" with this Nola Blue Records debut. A collection of 12 originals all written by Williams alone or with other Nashville songwriters. Recorded and engineered in Muscle Shoals at FAME Studios with an iconic rhythm section including Will McFarlane, Bob Wray, Clayton Ivey and Justin Holder.

In reviewing Meg Williams' 2017 EP, Bob Leggett, LA Music Critic, said, ""Recommendation: This lady is going places. Get on board and support her now." "Take Me As I Am: The Muscle Shoals Sessions" clearly advances the blues rock trajectory already underway for Williams. Meg Williams performs frequently at venues across the country with her band, Meg Williams Band, as a solo/duo act, and as a guitarist for other artists. She recently competed in the 2019 International Blues Challenge (Memphis, TN), representing the Kentucky Blues Society, and was the house band director for the Women in Blues Showcase during the IBC's. Often compared to Susan Tedeschi and Bonnie Raitt, Meg's guitar playing has captured the attention of listeners throughout the US and beyond.

MICHAEL JOSEPH
INTO THE BLUE

KEY SELLING POINTS:

Looking back on the extraordinary journey leading to the highly anticipated upcoming release of his debut instrumental album *Into the Blue*, Michael Joseph can pinpoint the exact day and time inspiration first struck. Midmorning on February 11, 2011, during a break from arranging dance music for a specific project, the composer, pianist and multi-instrumentalist turned to his wife Beth and said, "I wish I could compose music. I know I can arrange, but to compose would be such a gift." Knowing her husband and friend for 40 years, she asked him, "Have you ever tried for more than ten minutes?" When he admitted he had not, she encouraged him to sit at the piano for at least two hours and challenge himself. After only an hour, a welcome flood of ideas broke through and he quickly penned "Awakened," a perfectly titled first song that blends the elegance of acoustic piano with powerful synth generated symphonic elements. Released as a single in 2015, the track appeared on the popular New Age compilation album *Sounds from the Circle VII*. A re-recorded version of "Awakened" is included on *Into the Blue*.

The entire concept of the transcendent 13 track collection is based on Michael taking an introspective look at his life and inside his soul. "They say the gateway to the soul is through the eyes…so in my case with my blue eyes, into the blue. In a way each song says a lot about me, as if they are powerful snapshots touching upon different experiences, thoughts and emotions. Sometimes it's nothing more than a simple reflection of how I happen to feel at the moment I sit down at the piano."

"There is something about new age music that can not only reach your soul but calm it as well," he says. "There have been new age artists that can reach me on that level and I always thought of that music as a gift. There is a lot of beauty in this world and unfortunately, I don't think we allow ourselves to step back to see it often enough. For me, music is a big part of that beauty. Music can shape our day and shape our mood. New Age music seems to be the genre for me that relaxes the soul. I thought that if I could write music that can spread that peaceful feeling and make people feel good about themselves, this would be the right musical road to take."
